Automated Decision-Making/Profiling

For admissions applications at the normal round – the first intake into any school – all applications will be processed through a co-ordinated admissions scheme. This uses the data you provide and the ranking of applications by each school to determine which school is offered for each child. This is an automated process within each local authority.

Offers are made to the relevant number of children for each school not less than up to the published admission number for each school with those at the top of each school's ranked list being offered first.

Where one or more school could provide a place to a child with more than one school named on his or her application form, a place will be offered only to the school named highest on that application form with schools named lower on the form being disregarded.
