## Personal Social Services: Adult Social Care Survey (ASCS) - England

When processing your personal, special category personal or criminal/law enforcement data, Westmorland and Furness Council ('the council') is required under Articles [13](#) and [14](#) of the UK General Data Protection Regulation (UKGDPR) to provide you with the information contained in this Privacy Notice.

This notice explains what the council will collect, who it will be shared with, why we need it and how we will use it. The council will continually review and update this Privacy Notice to reflect service changes, feedback from customers and changes in the law.

The council is also required to comply with the data protection principles as laid out in the UKGDPR, to ensure that personal data is:

- processed lawfully, fairly and in a transparent manner
- collected for specific, explicit, and legitimate purposes
- adequate, relevant, and limited to the purposes for which it was collected
- accurate and up to date
- kept for no longer than is necessary for the purpose(s) for which it was collected
- secured using appropriate technical or organisational measures

### Local Government Reorganisation (LGR)

From 1 April 2023, Westmorland and Furness Council replaced Barrow-in-Furness Borough Council, Eden District Council and South Lakeland District Council, as well as services previously delivered by Cumbria County Council.

Local Government Reorganisation is a complex process and there will be a period of transition to allow for services and support systems to be securely transferred.

During this time existing arrangements for data processing will be maintained until they can be reviewed, and new Privacy Notices issued. Individuals wishing to understand more about how their data is processed should refer to the following Legacy Privacy Notices:

- [Cumbria County Council](#)
- [South Lakeland District Council](#)

## Registration

As an organisation that processes large amounts of personal, special category personal or criminal/law enforcement data, referred to in legislation as a data controller, the council is required to register with the Information Commissioner's Office (ICO)

Name: Westmorland and Furness Council  
Address: South Lakeland House, Lowther Street, Kendal, Cumbria, LA9 4DQ  
Registration Number: ZB512761

The council's Registration Certificate can be viewed:

<https://ico.org.uk/ESDWebPages/Entry/ZB512761>

In most cases Westmorland and Furness Council is the data controller, however there may be instances where data is shared with another party as joint Data Controllers, or where the Council is operating as a data processor for another party.

## What is the Adult Social Care Survey (ASCS) and why does the council need to collect my data?

As a council with Adult Social Services Responsibilities (CASSRs), Westmorland and Furness Council participate in the Adult Social Care Survey (ASCS). The ASCS asks service users questions about quality of life and what impact care and support services have on their quality of life. 2023-24 is the fourteenth year the survey has taken place.

The **ASCS** is the most significant pool of personal outcome information for those receiving council-funded or managed adult social care.

'Personalisation' means putting the service user at the heart of the care planning and provision and it is crucial to have high quality information to aid our understanding of the impact and outcomes achieved, to enable choice and inform services development and improvement. A robust survey programme, collecting the views of the people who use services and support, is the best and most appropriate vehicle to achieve this.

The survey is an important resource in supporting development and improvement of local services and enabling people to make better choices about their care. The ASCS exists in a national police context which strives for greater focus upon personalisation in health and social care. The Care Act 2014 consolidates past legislation and regulation but continues to strive for greater personalisation along with improved transparency and accountability.

You can find out more about the **ASCS** at: <https://digital.nhs.uk/data-and-information/data-collections-and-data-sets/data-collections/social-care-user-surveys/adult-social-care-user-survey-ascs-2023-24>.

## Data Controller Arrangements

In most cases Westmorland and Furness Council is the data controller, however there may be instances where data is shared with another party as joint Data Controllers, or where the Council is operating as a data processor for another party.

## What is personal data?

UKGDPR Article 4 defines personal data as: any information relating to an identified or identifiable natural person ('data subject'); an identifiable natural person is one who can be identified, directly or indirectly, in particular by reference to an identifier such as a name, an identification number, location data, an online identifier or to one or more factors specific to the physical, physiological, genetic, mental, economic, cultural or social identity of that natural person.

## What is special category personal data?

UKGDPR Article 9 defines special category personal data as: racial or ethnic origin, political opinions, religious or philosophical beliefs, or trade union membership, and the processing of genetic data, biometric data for the purpose of uniquely identifying a natural person, data concerning health or data concerning a natural person's sex life or sexual orientation.

## What is criminal/law enforcement data?

The council is a competent authority as described in Schedule 7 of the Data Protection Act 2018 and is permitted to process data for law enforcement purposes that include: the prevention, investigation, detection or prosecution of criminal offences or the execution of criminal penalties, including the safeguarding against and the prevention of threats to public security.

## What data is collected and how does the council collect it?

The questionnaire is distributed to a range of Service Users selected at random. It contains a variety of questions to ascertain what Service Users think about the Service provided and there are also some free-text boxes which will help the Council gather a fuller picture of the Service and support locally focussed improvements. Data from the survey is not intended to be used solely to monitor performance but also to be used locally to inform delivery of service and support and to monitor and develop standards.

A unique code will need to be generated by councils so that returned questionnaires can be mapped back to the participant. This will enable survey teams to follow up those who have not initially responded to the survey, and to bring together information from a variety of data sources.

## Who does the council collect personal data from?

To provide the **ASCS** personal, special category personal or criminal/law enforcement data may be collected from or about the following:

- carers or representatives
- healthcare users

The **ASCS** may receive personal, special category personal or criminal/law enforcement data about you from the third parties mentioned above and other public bodies and organisations. In this case, we will tell you the source of the information unless we are unable to do so by law.

## Who does ASCS share personal data with?

The data collected are sent to NHS Digital and are used as the basis of analyses that are included in national level Official Statistics reports. Data are also used to populate several measures in the Adult Social Care Outcomes Framework (ASCOF).

- it is a legal requirement (in line with the Care Act 2014)
- there is a serious risk to you or to the adult you care for
- there is a good reason to share your information, e.g., a serious crime has been committed

While responding to your enquiries or complaints it may be necessary to share your personal data with other parts of the council or other public bodies or organisations. The council will make all reasonable efforts to contact you if this processing is going to have an impact on your rights or privacy.
